

50-37.4 District plan adoption or amendment.

The MU-I zone district described in Article II of this Chapter includes a district plan option. Projects described in an approved district plan may be approved without the need for additional hearings once the plan is approved. Following the approval or amendment of a district plan, no UDC approval, permit or building permit shall be issued for a project, structure or land use that is inconsistent with the adopted or amended plan.

A. Application.

1. Any property owner within the boundaries of a zone district requiring or allowing the approval of a district plan may file an application for approval of a district plan. Any property owner within the boundaries of an approved district plan may file an application for amendment of that district plan;
2. The application provisions of Section 37.1.B shall apply to the extent they are consistent with subsection 1 above;

B. Procedure.

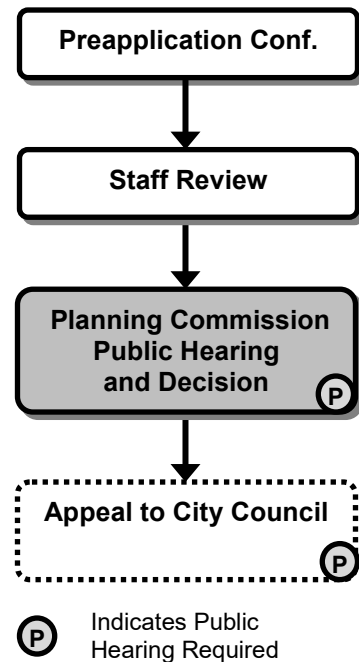

The planning commission shall review the application, conduct a public hearing pursuant to Section 50-37.1.I, with public notice as required by Section 50-37.1.H, and make a decision to adopt, adopt with modifications, or deny the application based on the criteria in subsection C below;

C. Criteria.

The planning commission shall approve the application, or approve it with modifications, if it determines that the application:

1. Is consistent with the comprehensive land use plan;
2. Is consistent with the purpose of the zone district and the plan approval requirements and criteria for the zone where the plan is proposed, as stated in Article II of this Chapter;
3. Will not create material adverse impacts on nearby properties, or if material adverse impacts may be created they will be mitigated to the extent reasonably possible. (Ord. No. 10044, 8-16-2010, § 6; Ord. No. 10096, 7-18-2011, § 50.)

District Plan Adoption or Amendment

50-37.5 Subdivision plat approval or amendment.**A. Applicability.**

This Section applies to all applications to subdivide unplatted land, or to replat previously platted land, or to adjust the boundary lines between existing property lines. This Section is intended to comply with all applicable provisions of state law, including without limitation Laws of Minnesota 1933, Chapter 93 and Laws of Minnesota 1974, Chapter 236 and any provisions of MSA 462.358 and Chapter 505 and 508, as amended, still applicable to the city, and shall be interpreted to comply with those provisions wherever possible. All applications to subdivide land shall follow the standard subdivision process in subsections G and H below unless provided for in subsections C, D, E or I below.

In addition to city approval, all subdivision plats, registered land surveys, and condominium plats will need to be approved by the St. Louis County surveyor prior to recording at the St. Louis County recorder's office.

1. General exemptions.

The following subdivisions of land are exempted from the provisions of this Section:

- a) Platted cemeteries done in accordance with the requirements of applicable state statutes and ordinances;
- b) Transfers of interest in land pursuant to court order; or
- c) Registered land surveys prepared for the purpose of clarifying existing land descriptions.

2. Conveyance by metes and bounds.

The following conveyances by metes and bounds shall be exempt from the provisions of this Section and shall not constitute a subdivision if the subject of the conveyance meets any of the following:

- a) Was a separate parcel of record on the date of adoption of subdivision regulations, or was the subject of a written agreement to convey entered into prior to such time; or
- b) Was a separate parcel of not less than 2-1/2 acres in area and 150 feet in width on January 1, 1966; or
- c) Was a separate parcel of not less than five acres in area and 300 feet in width on July 1, 1980, or;
- d) Is a single parcel of commercial or industrial land of not less than five acres and having a width of not less than 300 feet and its conveyance does not result in the division of the parcel into two or more lots or parcels, any one of which is less than five acres in area or 300 feet in width; or
- e) Is a single parcel of residential or agricultural land of not less than 20 acres and having a width of not less than 500 feet and its conveyance does not result in the division of the parcel into two or more lots or parcels, any one of which is less than 20 acres in area or 500 feet in width.

In any case in which compliance with the foregoing restrictions will create an unnecessary hardship and failure to comply does not interfere with the purpose of the subdivision regulations, the planning commission may waive such compliance by adoption of a resolution to that effect and the conveyance may then be filed or recorded;
