SUBJECT: Anderson Road reduced to one lane starting February 4

BY: Pakou Ly, Public Information Coordinator

Anderson Road reduced to one lane starting February 4

[Duluth, MN] - Anderson Road, near the Miller Hill Mall area, is one of several street projects planned under the City of Duluth's Street Improvement Program for 2011. A component of this project is a soil analysis. A crew will be out working on Anderson Road starting this Friday, February 4, 2011 collecting data on the underlying soils as part of the Anderson Road reconstruction project scheduled for summer 2011.

As a result of this work, the City of Duluth will be reducing Anderson Road to one driving lane starting Friday, February 4 until Friday, February 11, 2011. There will be intermittent lane closures between Haines Road and Chambersburg Drive. The City asks that motorists watch for flaggers who will be directing traffic, to slow down and use caution when driving by work crews.
