Traffic Signal Repairs Planned for Lake Ave and Superior St. on May 29

[Duluth, MN] - On Thursday, May 29th, the City of Duluth will be replacing a controller for the traffic signals located at Lake Avenue and Superior Street in downtown. The work will begin at 9:00 a.m. with completion estimated by Noon. The signals will be turned off and stop signs will be installed in their place for the duration of the work. No traffic lanes will be blocked but motorists will experience some delays due to slow moving traffic. Upon completion, stop signs will be removed and the traffic signals will be reactivated.

The City thanks the public for their patience and cooperation.
