Superior Street Reconstruction Steam Pipe Removal Rescheduled to Week of May 29

[Duluth, MN] - The removal of the 100-year-old steam pipes along Superior Street will not occur this week due to additional required excavation work. The City anticipates this work to start the week of May 29th, to allow Northland Constructors additional time to excavate around the steam lines and prepare the site for an efficient removal and asbestos abatement process.

The removal of these pipes will be performed by a licensed asbestos abatement contractor and environmental monitoring will be performed to ensure worker and public safety. Signs will be placed at the location of the work site to inform the public that asbestos abatement is occurring and to delineate the work zone. Public cooperation in staying within the designated pedestrian areas and out of the delineated work zone is greatly appreciated.

Access to businesses will be maintained while this work is performed. The Superior Street reconstruction project is running on schedule.
