City crews continue difficult task of clearing streets

[Duluth, MN] - City of Duluth Maintenance Operations crews have been clearing snow since 2:00 AM this morning. The main roads and emergency routes in Duluth are clear and driveable. City crews are currently tackling residential streets. Progress with residential streets will determine when crews can start plowing alleys.

The City urges people to shovel their sidewalks or help neighbors, if they have not done so, to avoid ice formation as temperatures continue to drop.

Anyone with additional questions may call the winter weather hotline at (218) 730-5430 or visit the City's Winter Watch website at <http://www.duluthmn.gov/winterwatch/>
